PROJECTS

WanderStay (Full stack Hotel Reservation System):   **Live Link | Source Code | Video Presentation**

Key Features:
- Token-based authentication for account activation.
- Users can make reservations and pay via their account balance.
- Users receive account and transaction notifications via email.
- Users can create, update, and delete reviews/comments for hotels only if they have a reservation at the hotel.

Technologies used: HTML, CSS, Bootstrap, Django (using the MVT architecture).

MyTodo (TODO APP using DRF):   **Live Link | Source Code | Video Presentation**

Key Features:
- Token-based authentication for account activation.
- Users can create, read, update, and delete tasks.
- Set due dates and priorities for tasks.
- Sort tasks by priority, due date, and status.

Technologies used: HTML, CSS, Bootstrap, JavaScript, Django REST Framework.

RecipeRealm (Full stack Recipe Sharing Platform):   **Live Link | Source Code | Video Presentation**

Key Features:
- Token-based authentication.
- Users can create, read, update, and delete their recipes.
- Users can comment on other user recipes and edit/delete their own comments.

Technologies used: HTML, CSS, Bootstrap, JavaScript, Django REST Framework.

EDUCATION

Bachelor of Science in Computer Science and Engineering (CSE)
Sylhet Engineering College, Sylhet
CGPA: 3.79
Graduation Year: 2024
